#97535

Air inflate the foil balloon. Slide the tail through one of the holes in the balloon cup and secure it with clear tape. Slip an uninflated 260 Twistee through the two remaining holes in the cup.

#1537

Assemble the rest of the Balloon Display Tower. Fill the base with water to provide stability. Extend the pole four feet.

#5236 / #5253

Air inflate two Rose latex balloons to 5" and tie together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster. Create a second cluster using Ruby Red. Twist the two clusters together to form the double collar. Slip the collar onto the pole. Attach the foil balloon to the top of the tower and nest the double collar snugly under it. Slip the uninflated 260 through the collar and tie it.

#80266 / #3554

Air inflate the balloon. Roll the tail up like a scroll and tape it flush with a piece of clear tape. Add the hang tab to the top of the balloon. Tie a bow in the middle of a 6' strip of red ribbon. Slide the loose ends of the bow through the hang tab then tie them together. Slip the ribbon through the double collar so the standard balloon hangs freely.

#310013 / #310001

Cut one 6' strip of each color. Slip them through the double collar. Fold the end of each ribbon in half and carefully trim it at an angle to create a chevron tip.
