#11266 / #11267
Air inflate two silver latex balloons to 11" and tie together to form a duplet. Repeat to create a second duplet using Gold latex. Twist the two duplets together to create a four-balloon cluster. Create a second cluster, inflating the balloons to 7". Nest clusters together, wrap an uninflated 260 around the clusters to hold them together and tie off.

#97873
Air inflate the foil balloon. Roll the neck of the balloon around the middle of an uninflated 260 like a scroll. Tie the 260 to secure it to the balloon then use the loose ends to secure the foil balloon to the top of the latex clusters.

#18295 / #18296
Create three twistee curls using the following instructions. Fully air inflate, then release all the air. Tightly wrap 260 around a cylindrical object. Secure the tip of the balloon to the top of the cylinder using a clip. Fully air inflate, slip off the cylinder and tie.

Tie all three curls together at the necks, slip them through the latex clusters to secure them to the design.
