1	1663	150g Red Foil Bouquet Weight

**#96140 / #96110 /  
#86297 / #86065**

Helium inflate all the foil balloons and one of the Bubbles™ and attach curling ribbon.

**#96110**

Air inflate the 2nd Bubble™. Roll the tail tightly around the middle of an uninflated 260. Tie the 260 in a knot to secure it to the balloon. Attach two adhesive hang tabs, back-to-back, on the top of the Bubble™. Make sure the holes align.

**#5400**

Fully air inflate two 5" balloons and tie them together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster. Repeat to create a second cluster inflated to 4".

Nest the clusters together. Place the air-filled Bubble™ on top, wrap the uninflated 260 around the clusters and tie the ends to the bouquet weight to secure everything together.

Tie the helium inflated balloons to the hang tabs on the top of the Bubble™. Create a third latex balloon cluster inflated to 3". Slip it around the curling ribbon to hide the hang tabs.
