## #97720

Air inflate Orbz®. Roll the tail of the balloon around the middle of an uninflated 260 like a scroll. Tie the 260 to secure it to the balloon. Attach a adhesive tab to the top of the balloon. Set aside.

## Bird's Nest Base #18214

Fully air inflate a 260. Tie the ends together to make a ring. Squeeze the ring in half, making sure the knot is in the middle. Twist the balloon to form a figure 8. Create two more figure 8s and twist all three together to make a six-loop collar. Use the uninflated 260 on the bottom of the Orbz® to tie on the bird's nest and heavy weight.

## #97752 • #87752 • #87704

Helium inflate the balloons. Add curling ribbon. Tie them to the adhesive tab on the top of the Orbz®.

## 5" Latex Cluster #5220 • #5230

Air inflate two 5" balloons and tie them together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster. Slip the cluster around the curling ribbon attached to the top of the Orbz®.

### Five Petal Flower #5259 • #5124

Air inflate two 5" balloons and tie together to form a duplet. Repeat to create a second duplet. Twist the two duplets together. Tie in another balloon to create a five-petal flower. Create a final duplet and size balloons to 2". Slide into the middle of the petals and center on each side of the flower. Wrap the curling ribbon around the flower to hold it in place.

### Starlet Flowers #18214 • #18293

Fully air inflate a 260. Tie the ends together to make a ring. Squeeze the ring in half, making sure the knot is in the middle. Twist the balloon to form a figure 8. Squeeze the ends of the figure 8 into the center (see image below). Twist everything together in the center to create the four smaller loops of the flower. Place the flower under the helium filled standards and wrap the curling ribbon around it to secure.
