## #11128

Air inflate two white latex balloons to 11" and tie together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster.

## #12808

Air inflate two pink Quicklinks™ to 12" and tie them together neck to tip. Tie an uninflated 260 to the neck of the lower Quicklink™. Wrap the 260 around the knot of the white four-balloon cluster then tie it to the bouquet weight.

## #87865

Air inflate the foil balloon. Roll the tail of the balloon around the middle of an uninflated 260 like a scroll. Tie the 260 to secure it to the balloon. Use the loose ends of the 260 to tie it to the tip of the upper pink Quicklink™. Add a hang tab to the top of the bottle.

## #5241

Air inflate twelve balloons to 5" and create 3 four-balloon clusters using the technique above. Slip the clusters between the foil balloon, the pink Quicklinks™ and the white latex cluster.

## #6826 / #6801

Air inflate approximately twenty 6" Quicklink™ balloons to different sizes. Tie them together in a random line using the tips and necks. Use an uninflated 260 to attach the "bubbles" to the hang tab on the top of the bottle. Use balloon bond to secure the lower end to the side of the bottle.
