#11263

Air inflate two latex balloons to 10" and tie together to form a duplet. Repeat to create a second duplet using blue latex. Twist the two duplets together to create a four-balloon cluster. Create a second cluster, inflating the balloons to 7". Twist the clusters together to form the base.

#97025

Air inflate the foil balloon. Roll the neck of the balloon around the middle of an uninflated 260 like a scroll. Tie the 260 to secure it to the balloon then use the loose ends to secure the foil balloon to the top of the latex clusters.

#18302

Create three twistee curls. Fully air inflate the twistee, then release all the air. Tightly wrap it around a cylindrical object. Secure the tip of the balloon to the top of the cylinder using a clip. Fully air inflate, slip off the cylinder and tie.

Tie all three curls together at the necks, slip them through the latex clusters to secure them to the design.
