Air inflate two 11" latex balloons to 9" and tie together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster. Create a second cluster. Inflate the balloons to 7". Tie a heavy weight to a uninflated 260, nest clusters together, wrap 260 around the clusters to hold them together and tie off.

#18358

Air inflate halfway and tie off. Use uninflated end to tie balloon in to the center of the balloon clusters.

#18238

Fully air inflate, then release all the air. Tightly wrap around a cylindrical object. Secure the tip of the balloon to the top of the cylinder using a clip. Fully air inflate, slip off the cylinder and tie. Slide curled balloon around 18358.

#97146

Helium inflate the balloon. Roll the neck of the balloon around the middle of an uninflated 260 like a scroll. Tie the 260 to secure it to the balloon then use the loose ends to tie the foil balloon on to top of 18358.

#5220 #5230

Create a 5" four balloon cluster using the method above. Slip the cluster under 97146 and twist it 90 degrees to secure it in place.

#96946 #87703
