Fully inflate two 5" latex balloons to equal size. Tie them together to form a duplet. Repeat to create a second duplet of equal size.

Twist the duplets together to create a four-balloon cluster. Repeat these steps to create a second cluster inflated to 4".

Nest the clusters together with the smaller one on top.

#87492 / #18305

Air-inflate the foil pumpkin, roll the tail of the pumpkin balloon around the middle of the uninflated twistee like a scroll. Tie the twistee to secure it to the bottom.

Place the pumpkin on top of the latex, pull the loose ends of the twistee through the latex and tie it to secure all three parts together.
