Large Candy Bouquet

Colors

Plan your candy bouquet first. Choose coordinating balloon, bows, curling ribbon, cello, shred and candy.

Filler

Crumple the 7" strip of cello and fill about 3" of the mason jar. Add candy. Use shred to fill space on top of candy.

Cello

Lay the two 7" squares of cello at a 45° angle to each other so the corners form an eight point star. Center cello wrap over mouth of jar, then place the lid over the cello and screw on the ring.

Candy Connector

Use the candy box dot to attach the candy connector to the center of the lid.

Curling Ribbon

Tie 2 or 3 strands of curling ribbon in a double knot around the candy connector and curl the ribbon. Repeat with remaining strands.

Bow

For epiphany pom bow: Fluff the bow and attach to the candy connector.

For pre-notch bows: Staple the bow backing cards together to form a tunnel for the candy connector; then fluff the bows. Slide onto the candy connector.

Balloon

Air inflate the foil balloon and attach the mini foil cup. Slide the foil cup onto the candy connector and push down to secure.

Supplies from Balloons Everywhere

QTY	DESCRIPTION
1	Standard Foil Balloon
1	Mini Foil Cup
1	Epiphany Pom Bow
2	-or- Pre-notch Bows
